#### Hospitals in Stara Zagora

22. There is a State Hospital and a Polyclinic located in Stara Zagora. The Polyclinic is attached to the Stara Zagora Municipality. Both the State Hospital and the Polyclinic have facilities for all branches of medicine. The facilities of the State Hospital are concentrated in one location; the facilities of the Polyclinic are located in various parts of the city. The State Hospital has a capacity of about 500 beds; the Polyclinic has a capacity of about 200 beds.
23. Tuberculosis patients are treated in a separate ward of the State Hospital.<sup>7</sup> There is a maternity ward in the State Hospital; the maternity section of the Polyclinic is located on the corner of "Khristo Botev" and "9 September" Streets in a 3-story building that was the private clinic of Doctor Ivan Soskov [redacted] until 1947.<sup>8</sup>
24. Since 1947 there has been no military hospital located in Stara Zagora. Prior to that date, the 8 Division Military Hospital was located in what is now the barracks of an unidentified self-propelled artillery unit. When the 8 Division headquarters were moved to Khaskovo in 1947, the hospital installation was also moved to Khaskovo.<sup>9</sup>

#### Bacteriological Institute

25. There is a bacteriological institute located at the intersection of "Molotov" and "Slavyani" Streets and adjacent to the Stara Zagora railroad station park. The institute is housed in three buildings; the main laboratory is housed in a 2-story, 20 x 10 meter building; the other two buildings are small and have one story each and are used to house rabbits and other experimental animals.
26. There are 9-10 persons employed at the institute.
27. Typhoid and tetanus sera are prepared at the institute.

#### Medicine Shortages

28. The medicines in shortest supply are various sulfa drugs, penicillin and streptomycin.
